

Setting up your fundraising page

1. Click the "Fundraise Now" button on www.jenash.org/countrybbq
2. To set up your page, you must have an account on the Canada Helps website. You can use an email address, or link to your Facebook or Google login. If you already have an account, simply log in to get started!
3. Once you have registered you will be taken to the Fundraiser Set Up page that will be automatically linked with JACC and the Walkathon. Select "General" from the drop down menu beside the JACC logo.
4. Leave the type of fundraiser blank (it will show as ----- in the drop down box)
5. Fill in the rest of the form to create your personal Fundraising Page.

Key points to remember

- "Title of your Fundraiser" - please include the term JACC Walkathon and your name to help supporters find you in search results.
- Use the current day as your "Start Date" and August 26th as your "End Date"
- Enter your name in the field marked "Name of the Page Owner"
- Tell your story and why you are raising funds for JACC

Once you save the page, you will see a custom page link that you can send to your family and friends via email or social media.

Thank you for supporting JACC!
