FROM YOUR HEART TO THEIRS: STORIES OF HOPE

PATRICK'S NEAR FATAL ACCIDENT

On June 6, 2024, Leanne & Joe's world was turned upside down in an instant when, Patrick, was struck by a vehicle while riding his bike. Patrick's hospital stay would last 5 long weeks. His rehabilitation involved learning to eat, drink, walk & even go to the washroom all over again. Our support provided his family with the financial relief they needed so mom could remain bedside during this critical time, while dad cared for their other 3 boys.

A MESSAGE FROM ASHVIHA'S MOM

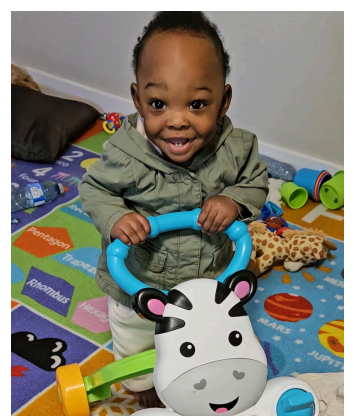

"Born with a left club foot, leg discrepancy, and three toes. Ashviha has been doing exceptionally well after her leg discrepancy lengthening surgery. Her recovery and healing process has been remarkable, and she's showing great strength and determination as she regains her mobility. She is currently able to walk little steps with the support of her walker, is motivated and doing absolutely amazing. We are incredibly proud of Ashviha's resilience and progress." -Shamila

DID YOU KNOW?

The presence of a parent can significantly reduce a child's anxiety & fear during a hospital stay. Studies suggest that parental presence may contribute to faster healing.

ARIGOLD'S 108 DAYS IN HOSPITAL

We were so excited to catch-up with Blessing, AriGold's mom, and hear about his progress. AriGold is thriving. Born at 24wks, he is now an active young man eager to practice his new walking skills. He loves to play on anything with a keyboard and enjoys FaceTime chats with Dad when he's not home. His parents are forever grateful for the support that was provided during his extensive hospital stay. Thanks to our donors, Mom was able to remain bedside, which has been proven to dramatically improve outcomes for hospitalized children.

SHOUTOUTS & SMILES

As a social worker on the Complex Continuing Care unit at Holland Bloorview Kids Rehab Hospital, I have seen first-hand the crucial role Jennifer Ashleigh Children Charity has played in supporting our most vulnerable families. Having a medically complex child is very taxing for caregivers: emotionally, physically, and financially. Many caregivers have to augment their work schedule or leave work altogether in order to be a support for their child and provide the bedside medical care needed.

JenAsh has been a lifeline for many of our caregivers who cannot afford the cost of accommodations, food, and travel—this funding has given them the opportunity to be present for their child with the peace of mind of knowing when their next meal will be, that they have a warm place to stay, and can come and go with ease. Our team has ongoing gratitude for all of the support JenAsh has provided in past years as JenAsh continues to elevate the quality of life for the families that we serve.

With sincere gratitude from Holland Bloorview Kids Rehabilitation Hospital for all that you do,

Sincerely,
Anna Chouchkova MSW, RSW
