SUMMER 2026

A STORY OF CARE, CONNECTION, & IMPACT

COHEN - PROOF THAT STRENGTH COMES IN THE SMALLEST PACKAGES

Born 12 weeks premature, Cohen entered the world far too early. While his parents were thrilled to welcome their new baby, they soon learned that little Cohen had Stage III brain bleeds.

What followed was an intense and frightening journey. During his 84-day stay in the Neonatal Intensive Care Unit (NICU), Cohen underwent **seven** spinal taps, **eight** blood transfusions, and **three** brain surgeries.

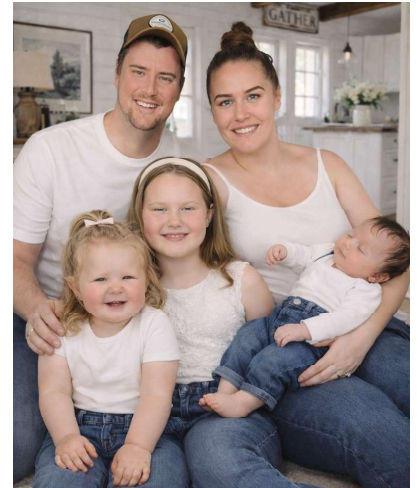

Determined to be there, his parents missed work. "We were traveling three hours one way from Ottawa to Belleville. Travel expenses, food cost and accommodations were starting to add up and with two other children at home, we felt hopeless and defeated", explains Cohen's mom, Taylor.

Jennifer Ashleigh Children's Charity helped ease these costs during an overwhelming stage, allowing this family to focus on what mattered most - the care and well being of their child.

"My family and I are forever grateful for Jennifer Ashleigh Children's Charity. If it wasn't for you we would not have been able to be with Cohen as much as we were."

Today, Cohen is finally home, surrounded by his loving family. His parents remain hopeful and committed to every step of his growth and development.
